Board of Directors – Regular Meeting San Simeon Community Services District AGENDA

Wednesday September 12, 2007 Regular Meeting 6:00 PM Cavalier Banquet Room

Note: All comments concerning any item on the agenda are to be directed to the Board Chairperson.

- 1. 6:00 PM- REGULAR SESSION
 - A. Roll Call
 - B. Pledge of Allegiance
- 2. PUBLIC COMMENT:

Any member of the public may address and ask questions of the Board relating to any matter within the Board's jurisdiction, provided the matter is not on the Board's agenda, or pending before the Board. Presentations are limited to three (3) minutes or otherwise at the discretion of the Chair.

- A. Sheriff's Report
- B. Public Comment
- 3. STAFF REPORTS
 - A. General Manager Report

Current Project Report

- (a) Curb painting
- (b) Sewer pipe bridge integrity test
- (c) Treatment Plant generator painting
- (d) Camp fires on beach (Jurisdiction and Sign)
- B. Superintendent Report
 - (a) Water & Wastewater Operation Report
 - (b) CCC / EQ Basin improvements (update)
 - (c) Reservoir cleaning
 - (d) Collection system hot spot cleaning
- C. Other Reports
 - (a) District Financial Summary
- D. District Counsel Report

4. ITEMS OF BUSINESS

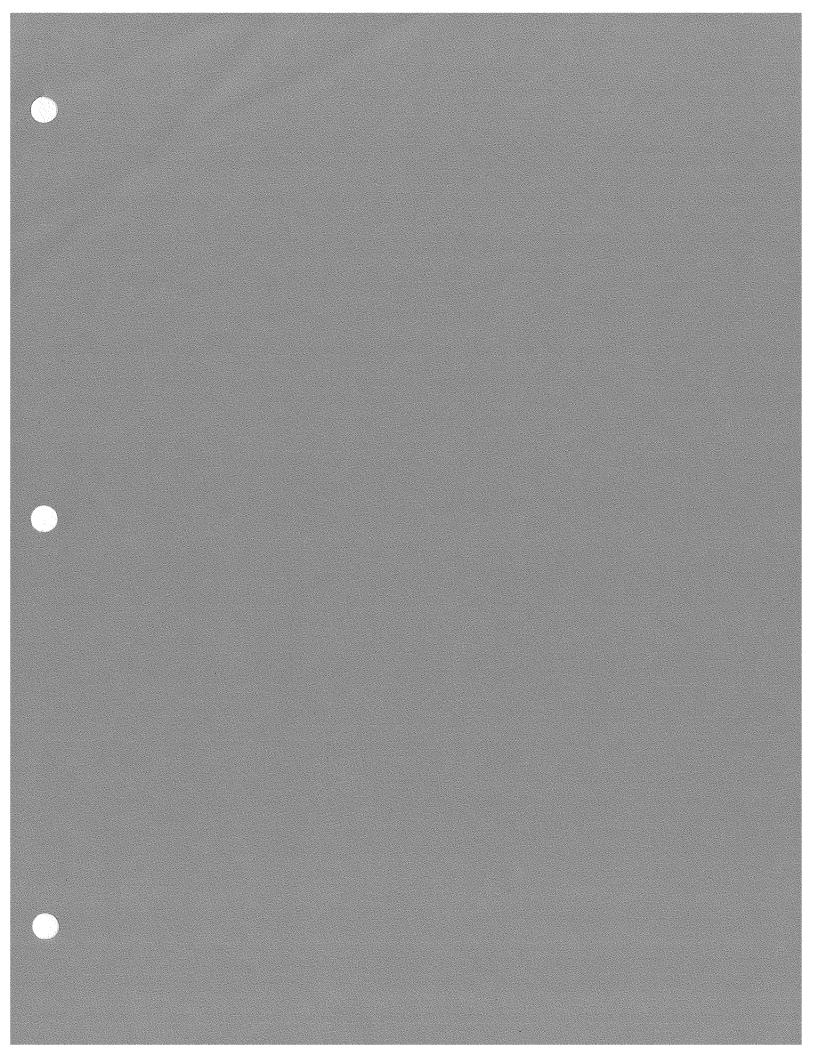

A. Approval of Minutes – August 8, 2007

B. Approval of August 2007 Disbursements Journal (Warrants)

CRET GRANTS TO NOT WE
PAY FINE

5. DISCUSSION/ACTION ITEMS

- A. Review / Approval of treatment plant paving quote
- B. Review / Approval of collection system smoke testing quote
- C. Review / Approve budget and scope of work for well head Control of the contr
- D. Letter sent to Keshav Gupta 9450 Castillo Dr. regarding Oceanside
- E. Board Committee Reports
- F. Board Reports
- 6. BOARD/STAFF GENERAL DISCUSSIONS AND PROPOSED AGENDA ITEMS
- 7. ADJOURNMENT

General Manager's Report September 12, 2007

A. Curb Painting

The curb painting was completed this year. As previously practiced the portions Ger Octassos of curb that were red were re-painted red and portions of curb that were yellow GE were re-painted yellow.

B. Sewer Pipe Bridge Integrity Test

The sewer pipe bridge integrity test was performed we anticipate the report will arrive soon.

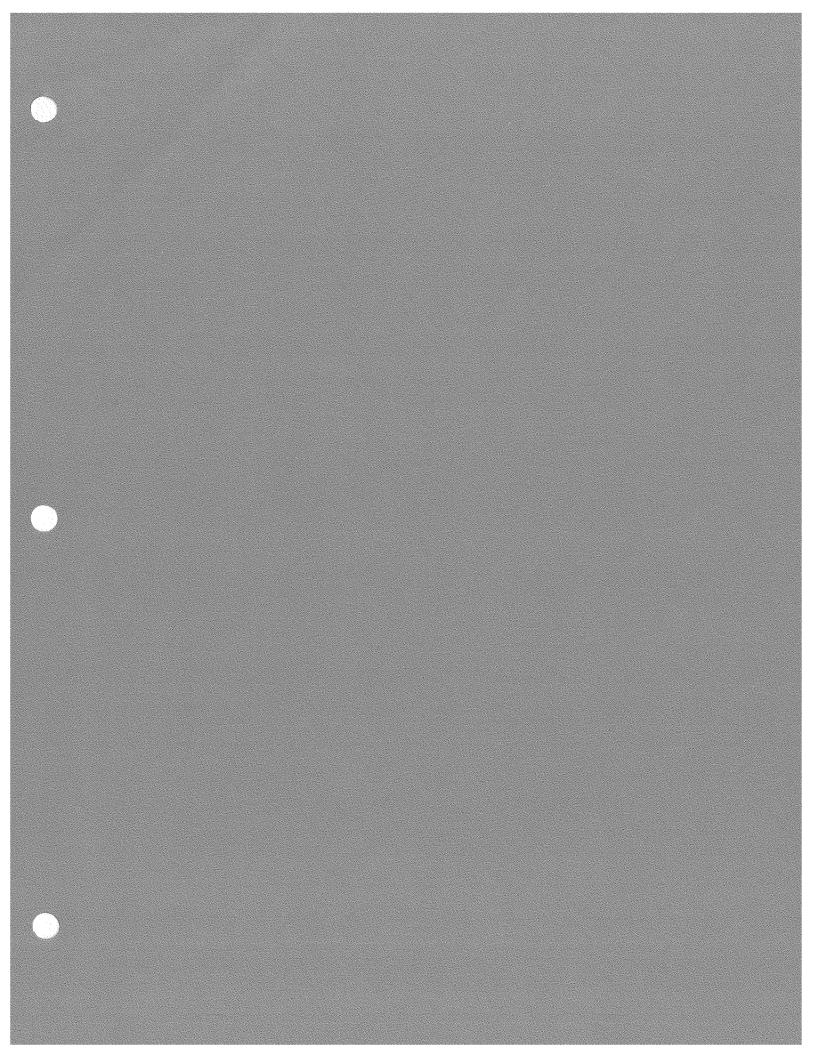

C. Treatment Plant Generator Painting

Three contractors have been contacted and thus far one has scheduled then rescheduled an inspection to prepare a quote. The remaining two are planning a site visit; we anticipate those visits will occur shortly.

D. Camp Fires on Beach (Jurisdiction and Sign)

Staff as well as Terry Lambeth and John Russell meet with Nick Franko of State Parks to discuss recent sightings of camp fires and to discuss who has jurisdiction of the beach west of Pico Bridge. The beach west of Pico Bridge is outside of the State Park's jurisdiction and within the Sheriff Department's jurisdiction. Nick stated he would contact the Sheriffs to discuss jurisdiction boundaries.

In addition a sign stating no camping / no camp fires has been ordered for placement at the west end of Pico Avenue.

San Simeon Community Services District

Superintendent's Report

August 2007

Superintendent's Report

August 2007

September 5, 2007

The Wastewater Treatment Plant performed well during the month and produced a good quality treated effluent. Based on lab results received so far we were in compliance throughout the month of August with no exceedances.

the current average reading is at about 14.2 feet from the surface. As shown on Page 3 of this report, by comparison with average Based on depth readings taken at our wells, the water table has dropped nearly a foot and one-half (1 1/2 feet) over the last month and water depth for both wells last year at this time versus this year, the water table is down 2 1/2 feet from last year at the end of August. Update on Chlorine Contact Chamber - Equalization Basin Electrical & Instrumentation Improvement Project: All the components Pacific States Electric & Instrumentation are now in the process of completing the installation and programming the electrical control have been received. All but one new Flow Meter has now been installed and most of the conduit and wiring has been completed. units. We expect to be complete with this project by the end of September.

Reservoir Inspection and Cleaning – a contractor has now completed the inspection and cleaning of the water reservoir. There was very little settled material on the bottom to be removed and the condition of the reservoir was good. We will be receiving a full report with photographs. Sewage Collection System "Hotspot" Cleaning was recently completed by Mark Funderburk from ECO Resources in Santa Paula. Mark also painted the curbs while he was here.

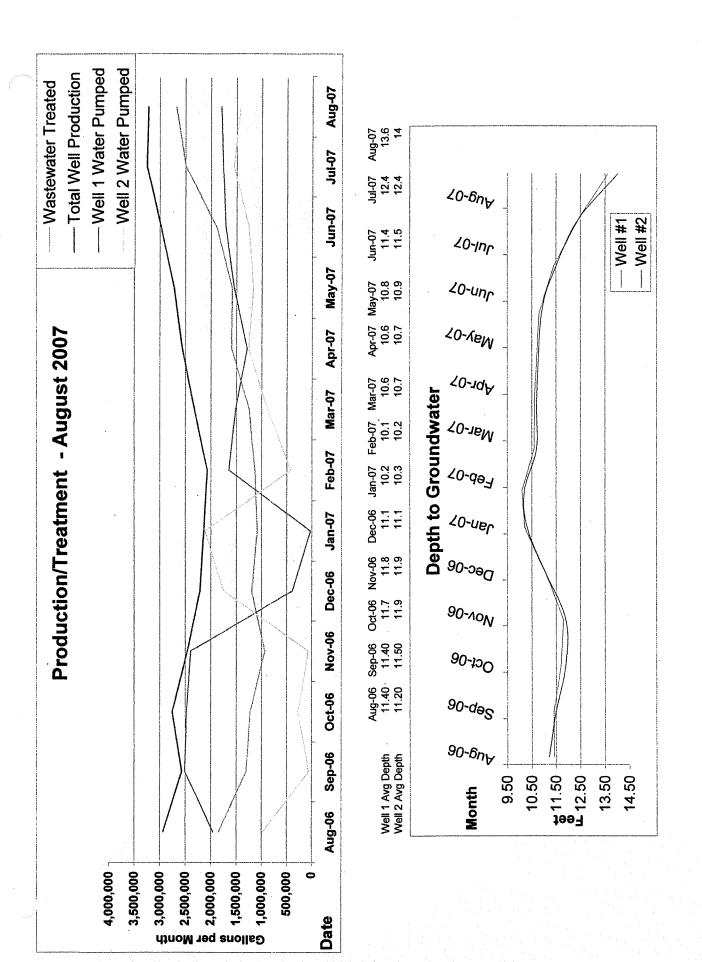

Instrumentation Improvements in progress, Mark Funderburk with the sewer cleaning truck and painting curbs, and the reservoir inspection team. One of the photos shows Jerry Copeland with his head down in the new vault, installing the flow meter sensor. Some photos of current projects are included with this report. They include photos of the initial inspection of Well #3,

Report prepared and submitted by Dan Daniels, Facility Manager, ECO Resources, Inc.

San Simeon Hot Spot Report

8/13/07/
Prepared by: Eco Resources

August 17, 2007

Reference: HOT SPOT CLEANING REPORT

ECO Resources is submitting to the City of San Simeon the Collection System Report for complete 100% Hot Cleaning, the Total Footage cleaned is 3,932 feet.

On the Date 8/13/07 complete line HOT SPOT cleaning was performed. This Report includes:

- Hot Spots List
- Hot Spots cleaned
- Sewer Line Map

If you need additional information or the City would like to pursue activities in addition to the line cleaning already preformed, please contact us at (805) 933-2712.

Sincerely,

Marc Funderburk

ECO Resources, Facility / Collections Operator

Man Fillh

SAN SIMEON HOT SPOT LIST

MH#1 to MH#2 — Cleaned Semi-Annually.

MH#2 to MH#3 – Cleaned Semi-Annually.

MH#3 to MH#4 – Semi-Annually.

MH#4 to MH#6 – Semi-Annually.

MH#6 to MH#8 – Semi-Annually.

MH#14 to MH#15 – Semi-Annually.

SEWER LINE MAP SUMMARY

During the hot spot cleaning the following corrections to the Master Plan Map For Existing Sewer Piplines Recommended for Improvements developed by Boyle Engineering were discovered. Please refer to the attached map with circled corrections.

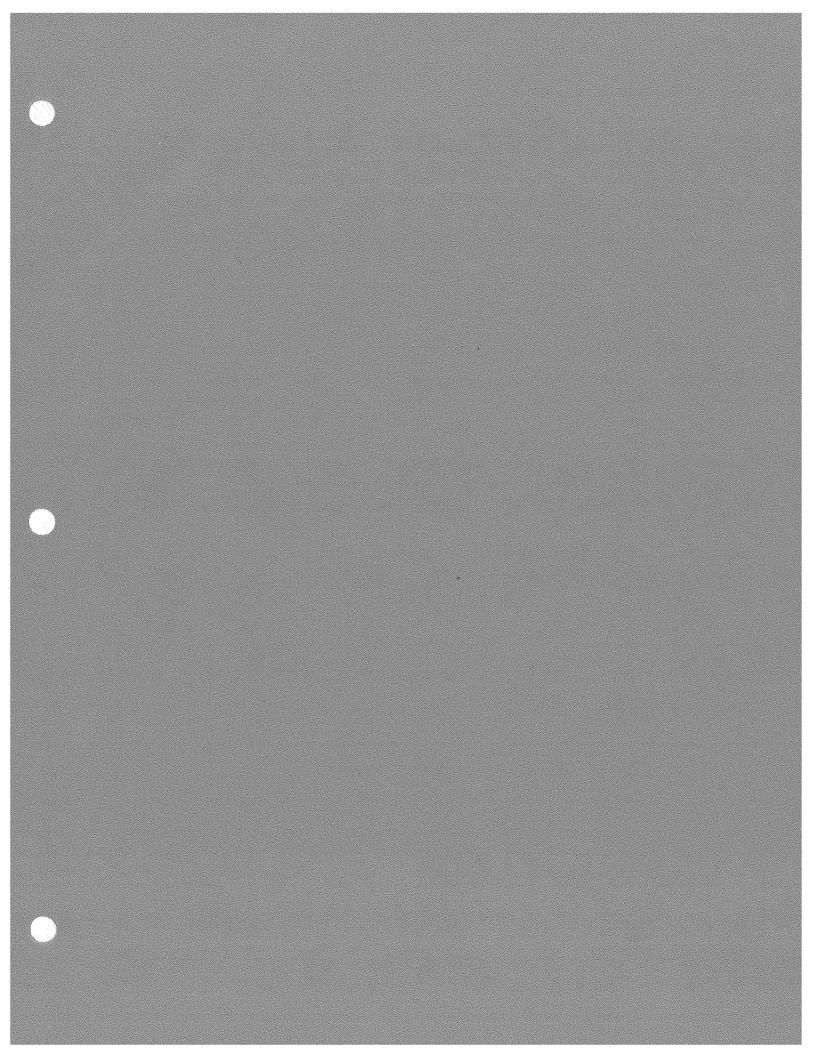

- 50 feet North of SSMH #4 is an addition of a manhole for future connections
- 347 feet east of SSMH #16 and 509 feet west of SSMH # 12 is an addition of a manhole.

Board of Directors – Regular Meeting San Simeon Community Services District MINUTES

Wednesday, August 8, 2007 Regular Meeting 6:00 P.M. Cavalier Banquet Room

1. 6:00 P.M. – REGULAR SESSION

Roll Call – All Directors present Pledge of Allegiance

- **2. Public Comment:** No comment from public.
 - **A. Sheriff's Report**: No Representative present.
- 3. STAFF REPORTS:
 - A. General Manager's Report (Charlie Grace)
 - (a) Quarterly Newsletter: The second Quarterly Newsletter was distributed. Suggestions were given on Newsletter and will be implemented in next Newsletter.
 - **(b) Sewer Pipe Bridge integrity test:** Approved at last regular meeting, July 7, 2007. Quote was included in August 8, 2007 Board Packet. Advantage is scheduled to come in one week to perform test.
 - (c) Collection system smoke testing quotes: Staff is proceeding with getting quotes. So far, there is limited response. Director Fields asked if there was going to be a time limit on getting quotes. Mr. Grace assured Director Fields that testing would not be prolonged, and anticipates getting several quotes soon. Testing needs to be done before the rainy season.
 - (d) Treatment Plant generator painting: Currently looking for contractors and quotes. Quote will include generator at the Treatment Plant and Well site.
 - B. Superintendent's Report: Facility Manager, Dan Daniels, presented the report. General Manager's report was reviewed as attached to the Board packet. Waste Water Treatment Plant performed well during the month of July and produced good quality treated effluent. Based on lab results, plant was in compliance throughout the month of July, with no exceedances. Most of the components for instrumentation improvements have been received and the remainder will be received by August 20th. Installation has already begun. Most of the work will be done in-house to keep costs down. A pump and pressure tank will need to be installed at a later date. The area still needs to be paved. The paving has been put off until everything is finished.

Vice-Chair Russell asked if any water conservation has been met since initiating the stage 2 alert. Mr. Grace noted that at this time it was too soon to tell, while hotels are in high occupancy.

Base readings at wells, water table has dropped about 1 foot over last month. Current average reading is about 12.4. Mr. Grace had a current reading average of 13.3 over last two weeks. As per Boyle report, historically when you pump table down to 2 feet above sea level, you start to get saltwater intrusion. Since we measure from the ground down, the figure is at 13.5. Mr. Grace noted that sea level is at 15.7, and at 13.5 we have seen conductivity increase, which is a way to measure the salinity. Plant has begun running chloride and salinity tests on both wells.

Mr. Daniels asked Mike Hanchett if historically when wells were pumped below 2 foot mark, would you expect to see a problem or not until rough seas and swells. Mike's response was that they did not have intrusion, but subject to "slop over". Chairperson Lambeth mentioned that if intrusion begins, Well #3 could be used in case of an emergency. Well #3 belongs to the Hearst Corporation, and is not in current use and would need to be surveyed. The District is waiting to hear back from the Hearst Corporation on the approval of the use of the Well.

The issue of the Laundry facility in Cambria being closed was brought up by Vice-Chair Russell. Being that there is a Laundry facility at the Courtesy Inn, can Cambrian's come and use this facility, and won't it effect the water bill? A member of the community wanted to know if the Laundromat at the Courtesy Inn was even legal. Director Ricci mentioned that she thought the laundry facility was supposed to be for Courtesy Inn guests only, but that other residents use the facility as well. Director Fields pointed out that it would be nearly impossible for the Courtesy Inn to keep all others out of the facility. Director Ricci also pointed out that at a past meeting she had mentioned that the Courtesy Inn had increased the washers and dryers and that nothing was done about it. Mr. Grace mentioned that he would look into the matter.

Director Russell mentioned that in order to help conservation, if it was possible to ban water softeners? Mr. Grace noted that there is history of offering incentives rather than banning them.

C. Other Reports

(i) District Financial Summary:

\$ 39,660.55
\$ 43,179.32
\$ 2,831.26
\$788,108.93
\$ 85,788.08
\$ 20,636.98
\$ 47,436.07
\$ 87,602.46

D. District Counsel Report: Mr. Shultz informed the Board that he was working on a 7 page letter (which was not included in the Board Package), to the Regional Water Quality Control Board (RWQCB) regarding the SEP Account 3. The intent of the letter

is to let the RWQCB know that we would like to go forward with a Tertiary Treatment

Project, and asked for a 4 ½ year extension to finish the project. Letter was received and RWQCB has agreed to the 4 ½ year extension. Meeting is on September 7th with the RWQCB.

4. ITEMS OF BUSINESS:

A. Approval of Minutes – July, 2007

Motion Made:

Vice Chair Russell

Second:

Director Ricci

Approved:

5-0 as Amended

B. Approval of Warrants – July 1 – July 31, 2007

Director Ricci noted that in the Warrant Report check # 5592 was missing. Mr. Grace noted that he would check with GBP&B on the status of the check.

Motion Made:

Vice Chair Russell

Second:

Director Ricci

Approved:

5-0

5. DISCUSSION/ACTION ITEMS:

A. Approval of Ordinance No. 103 adopting CPI rate increase

All letters of protest against rate increase were given to counsel.

Motion Made:

Vice Chair Russell

Second:

Director Ricci

Approved:

5-0 Approved

B. Year Ending 2007 Annual Audit Quotes

Motion Made:

Vice Chair Russell

Second:

Director Mc Adams

Approved:

5-0 Approved as is

C. 2007 - 2008 Annual Budget Resolution 07-315

Motion Made:

Vice Chair Russell

Second:

Director Ricci

Approved:

5-0 Approved

D. Board Committee Reports: No Report

E. Board Reports: No Report

3

6. BOARD/STAFF GENERAL DISCUSSIONS AND PROPOSED AGENDA ITEMS:

Discussed problem with Mr. Grace as to outstanding bill with Nick Franco. The Board has provided an audit and all documentation with regard to this matter.

Board will discuss water softener and other water saving issues with Water Committee.

Director Russell wants to put up signs that say no campfires or overnight camping on the beach.

7. ADJOURNMENT: 7:45 pm

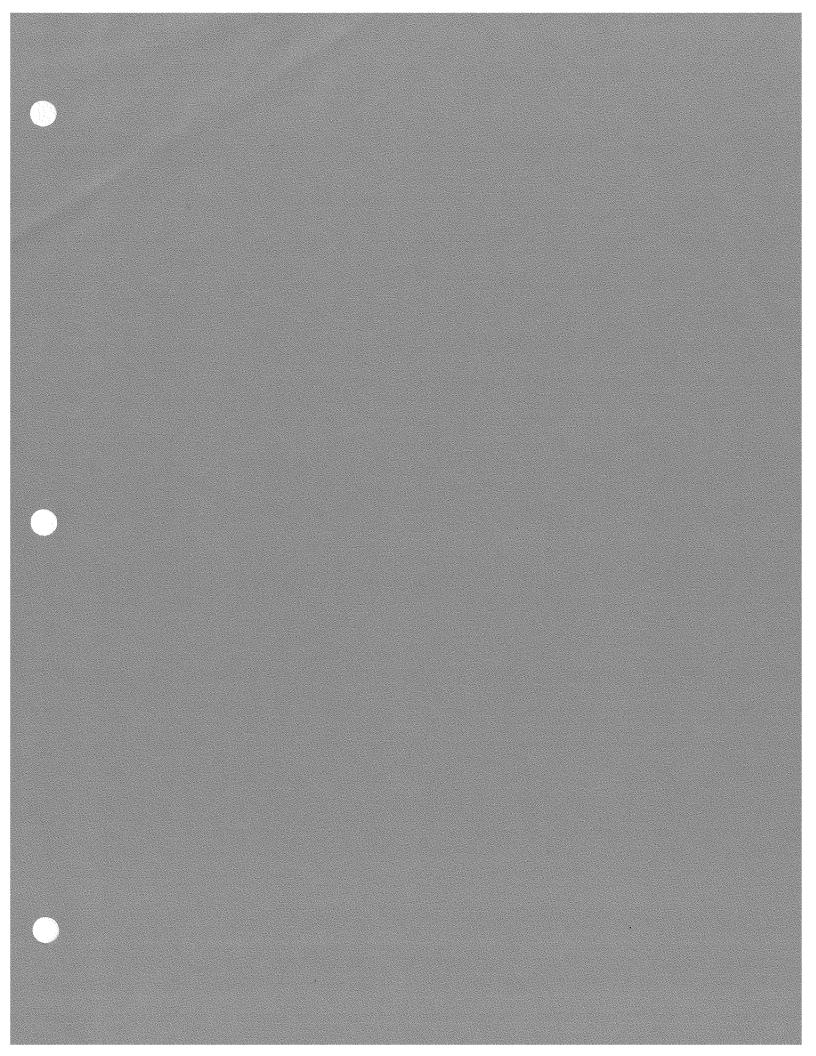

Page 1 of 1

Discussion / Action Item September 12, 2007

A. Review / Approval of treatment plant paving quote

The existing pavement in and around the structures at the Wastewater Treatment Plant has been in a state of disrepair for some time. During the 2006 significant facility repair effort, the pavement (blacktop) suffered further damaged due to the need for excavation. Excavation was necessary to repair / install items such as storm drains, abandoned air pipes, and replacement piping. Staff recommends the Board of Directors approves the attached quote and authorizes the pavement repair.

B. Review / Approval of collection system smoke testing quote

Two quotes of three quotes requested to perform collection system smoke testing are included for your review. Smoke testing is an attempt to locate system leaks and illegal sewer system connections or rule out existence of leaks and illegal connections as a possible source of inflow and infiltration into the collection system. The two quotes provided are from Mainline Utility Company and L.R. Paulsell Consulting. Mainline Utility's rate is \$1,500 per day based on \$187.50 per hour for an 8 hour work day. L.R. Paulsell's rate is \$1,575.00 per day based on \$196.88 per hour for an 8 hour work day. Both agencies charge a mobilization and de-mobilization fee although L.R. Paulsell was the only agency to list that cost upon submittal of the quote. In light of the extensive knowledge of the San Simeon system and extensive knowledge of inflow and infiltration sourcing, staff recommends L.R. Paulsell to perform the collection system smoke testing.

C. Review / Approve budget and scope of work for well head rehabilitation design

The Water committee is prepared to provide comment regarding the need for wellhead rehabilitation and thus the need for a budget and specifications.

D. Letter sent to Keshav Gupta 9450 Castillo Dr. regarding Oceanside Recently it has come to the attention of the General Manager that the Oceanside Inn has significantly expanded their seemingly temporary occupancy laundry facility into a commercial Laundromat open to the public. Such expansion and change of use requires the owner to obtain a Will Serve permit (letter) from the San Simeon Community Services District (SSCSD). No Will Serve letter was obtained by the landlord or lesser prior to the laundry facility expansion and change of use. Subsequently a letter was sent requiring the Oceanside Inn to demonstrate receipt of a Will Serve letter from the SSCSD and to demonstrate receipt of San Luis Obispo County permit to construct and operate a commercial Laundromat. Failure to provide proof of proper documentation would result in termination of service by October 1, 2007. The letter is included as part of the Board Packet for your review and comment.

ECO Resources 905 Corporation Street Santa Paula, CA 93060

Attn: Mr. Charles Grace

Subject: Proposal for San Simeon Sewer Smoke Testing.

Gentlemen:

Thank you for your request to provide quality Pipeline Services on the above project. I understand this project consists of smoke testing 9,000 lineal feet of sewers located throughout the Community. As we discussed the smoke will be inserted at various points along the sewers. Small marker flags will then be placed at any locations where the smoke escapes and those locations will be digitally photographed. A summary sheet will be provided listing all flagged locations by sewer segment. Sewer bypass pumping equipment will be on hand should it be necessary to plug sewer sections to perform the smoke test. We have estimated the work will take approximately 10 working days. Smoke testing can be somewhat disruptive to the community and requires notification of the local Fire Department. We will be using a liquid smoke agent that poses no fire hazard. We recommend that the work be performed after the summer tourist season ends.

Sewer Smoke Testing:	i	Lump Sum	\$15,750.00
Mobilization and Demobilization:	•	Lump Sum	\$2,250.00
	1	Total Cost	\$18,000.00
	1	TUIAI UUSI	\$ 10.000.00

At this time the work can be scheduled for the middle to the end of September. Please call me if you have any questions.

Very truly yours,

Robin Paulsell S.E.T.

Smoke Testing

Attachments:

Charlie,

We spoke Friday regarding smoke testing, and the services we provide. For the smoke testing job I will need a bit more information. Please forward any information regarding this particular job. I believe we spoke briefly about point repair as well. Please also forward any information applicable to point repair jobs.

In general we charge \$187.50 per hour, plus a mobilization fee for smoke testing. With further information I will be happy to provide you with a proposal.

Our other services include (not including mobilization):

Hydrovac...\$187.50 per hour with 2 hour minimum, or by the foot.

Line location...\$200.00 per hour

Video Inspection...\$187.50 per hour with 2 hour minimum, or by the foot

CIPP point repairs...by the job

Pipe Bursting...by the job

I look forward to working with you,

Mike MacEachern

Keshav Gupta 9450 Castillo Drive San Simeon CA. 93452

Reference: 9490 Avonne Ave, (APN No. 013-091-034), Commercial Laundromat

Dear Mr. Gupta:

It has come to the attention of the San Simeon Community Services District (SSCSD) that a commercial Laundromat has been installed in a structure on your property located at 9490 Avonne Avenue, also known as the Oceanside Inn. SSCSD records do not reflect that a Will Serve letter was obtained from the SSCSD prior to this installation. In addition we have no record of permits being issued to you from the San Luis Obispo County Planning Department for the operation of a commercial Laundromat at the above referenced location.

This letter is written to inform you that water service will be terminated at 9490 Avonne Avenue (Oceanside Inn) on October 1, 2007 until such time that it is demonstrated to the SSCSD that a Will Serve letter and appropriate County permits were in fact obtained.

It is our understanding that you have multiple water accounts located within the SSCSD, therefore each of those accounts will reviewed to ensure appropriate water use is taking place.

If you wish to demonstrate that the appropriate SSCSD and County approvals were obtained prior to the installation of the commercial Laundromat located at 9490 Avonne Avenue, please contact me at 805 927-4778.

Sincerely.

Charles Grace
