1. Staff Activity – Report on Staff activities for the month of February.

Along with billing and collections, Staff attended WRAC and CSDA meetings on behalf of the District. Staff assisted Phoenix Engineering with the USDA loan and document research and coordinated with Advance Concrete on sidewalk repair on Avonne Street (behind the Silver Surf). Staff hosted the Ribbon Cutting Ceremony for the Recycled Water Facility and attended a Recycled Water Distribution Training.

2. Grants, Loans and Partnership Opportunities -

A. Update on USDA Loan

As the USDA finalizes the District Loan Documents, Staff and Phoenix Engineering are completing final tasks asked by the loan officer. The USDA has yet to determine when construction on the Well Rehab Project can begin.

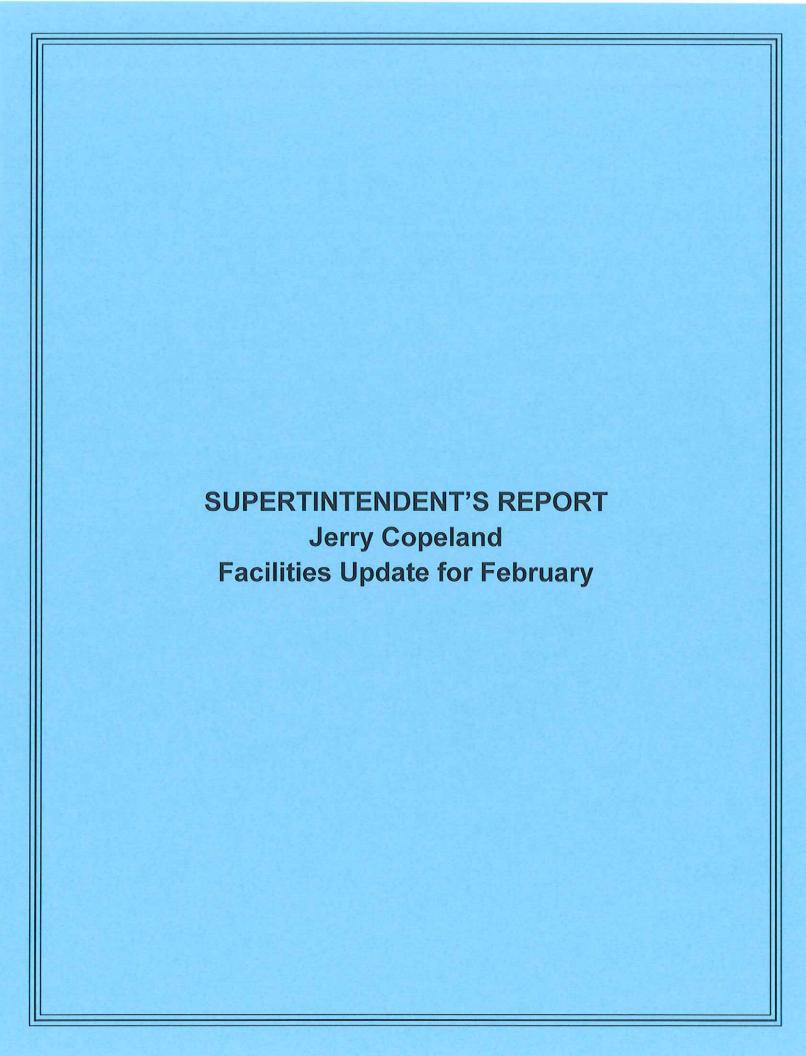

B. Update on WRAC/ Purple Pipe Grant

Staff completed all application requirements for the PROP 84/WRAC Grant application process. After GEI Consulting completed all of the project applications, they felt that it would be best if the San Simeon application was separated into two parts; Planning and Construction. At this round of the Grant requests the San Simeon project will be for part one Planning to match the other project requests. By changing our request for funds, it would make it more probable that our County would win the Grant request.

A Planning Grant would include funds for: an updated Title 22 Report for Distribution, a Study of the various opportunities available to improve water supply, Permitting and Environmental Studies, all studies and reports that are needed for major recycled water distribution projects. Funding for the design of the project would also be included. Our request for the Studies, Reports and Design would total approximately \$350,000.

3. Small Scale Recycled Water Project -

- A. Verbal update on the General Reclaimed Water Permit application.
 - a. Pursuit of a General Waste Discharge Permit for Landscape Irrigation
